

Pledge to Net Zero

In January 2020, we signed the Pledge to Net Zero to demonstrate our commitment to the transition towards a net-zero economy. Our target under the pledge is to achieve a 30% reduction in our total UK greenhouse gas (GHG) emissions by 2030, against a 2020 baseline. We are developing a science-based target to cover our international operations.

In FY21, total GHG emissions for the RSK group were 9863.20 tCO₂e (FY20: 11,341.68 tCO₂e), as shown in the table below. Beyond setting targets, our [sustainability-linked loan](#) means that the success of our business is tied to the impact we have on the planet and its people. Because of this, we remain focused on improving our operations to address our impacts and publicly reporting on our progress.

	FY20			FY21		
	RSK group	UK	Rest of the world	RSK group	UK	Rest of the world
Energy consumption, MWh	29,565.66	23,724.87	5840.79	29,388.93	24,840.12	4548.81
Scope 1 GHG emissions, tCO ₂ e	6060.28	4789.53	1270.75	5916.19	4938.64	977.55
Scope 2 GHG emissions, tCO ₂ e	726.89	393.37	333.52	487.25	122.82	364.43
Scope 3 GHG emissions, tCO ₂ e	4554.52	3679.38	875.14	3459.76	2951.28	508.48
Total GHG emissions, tCO₂e	11,341.69	8862.28	2479.41	9863.20	8012.74	1850.46
